FOREWORD

This amendment has been prepared by IEC technical committee 61: Safety of household and similar electrical appliances.

The text of this amendment is based on the following documents:

FDIS	Report on voting
61/1464/FDIS	61/1517/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

7 Marking and instructions

7.12.1 Replace the second dashed item by the following:

- the minimum distance between the supporting surface for the cooking vessels on the hob and the lowest part of the range hood. When the range hood is located above a gas appliance, this distance shall be at least 65 cm. If the instructions for installation for the gas hob specify a greater distance, this has to be taken into account.

30 Resistance to heat, fire and tracking

Add:

30.1 Addition:

The ball pressure test is carried out on the exposed parts of the underside of the **range hood** at a temperature of at least 105 °C.
