Rubber — Determination of solvent extract

TECHNICAL CORRIGENDUM 1

Caoutchouc — Détermination de l'extrait par les solvants

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to ISO 1407:1992 was prepared by Technical Committee ISO/TC 45, *Rubber and rubber products*, Subcommittee SC 2, *Testing and analysis*.

The results of interlaboratory trials have shown that the reproducibility of method B is very poor. For this reason, method B should not be used.

The main purpose of this Technical Corrigendum is to delete method B from the standard. In addition, the normative references clause has been updated.

Page 1, Clause 2

Replace "ISO 1629:1987" by "ISO 1629:1995".

Insert the year of publication of ISO 1795 (2000) and delete the footnote.

Page 1, Subclause 3.2

Delete (together with Annex A).
