Ref. No. ISO 3004/II-1979 (E)

Descriptors : cans, metal packages, preserved food, meat, meat products, dimensions, capacity, dimensional tolerances.

Price based on 3 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3004/II was developed by Technical Committee ISO/TC 52, *Metal containers*, and was circulated to the member bodies in January 1978.

It has been approved by the member bodies of the following countries :

Australia	Germany, F.R.	Romania
Austria	India	South Africa, Rep. of
Belgium	Italy	Sweden
Czechoslovakia	Mexico	Switzerland
Denmark	Netherlands	United Kingdom
Finland	New Zealand	USA
France	Poland	Yugoslavia

No member body expressed disapproval of the document.

Hermetically sealed metal containers for food and drinks —

Part II : Food cans for meat and products containing meat for human consumption

0 INTRODUCTION

Grouping of hermetically sealed metal containers for food and drinks :

- Part I : Round open-top general purpose food cans.
- Part II : Food cans for meat and products containing meat for human consumption.
- Part III : Cans for drinks.
- Part IV : Cans for edible oil.
- Part V : Food cans for fish and other fish products.

NOTE — Cans grouped under parts I, III, IV and V are described in the relevant documents.

1 SCOPE AND FIELD OF APPLICATION

This International Standard specifies a recommended range of capacities for round and non-round food cans for meat and products containing meat, for human consumption.

For round cans, the diameters related to the capacities are also given (in accordance with ISO 1361).

All can measurements in this International Standard are given in accordance with the provisions of ISO 90.

NOTE — The following can types are included in the designation "non-round cans" : rectangular cans, oval cans, round tapered cans, parallel sided and D cans, tapered sided cans with rectangular sections and pear shaped cans.
