Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3004/4 was developed by Technical Committee ISO/TC 52, *Metal containers*, and was circulated to the member bodies in February 1979.

It has been approved by the member bodies of the following countries :

Australia	Italy	Spain
Bulgaria	Korea, Dem. P. Rep. of	Sweden
Canada	Libyan Arab Jamahiriya	Turkey
Czechoslovakia	New Zealand	United Kingdom
Germany, F. R.	Portugal	USA
India	Romania	
Israel	South Africa, Rep. of	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Belgium
France
Netherlands

Hermetically sealed metal containers for food and drinks —

Part 4 : Cans for edible oil

0 Introduction

Grouping of hermetically sealed metal containers for food and drinks

- Part 1 : Round open top general purpose food cans.
- Part 2 : Food cans for meat and products containing meat for human consumption.
- Part 3 : Cans for drinks.
- Part 4 : Cans for edible oil.
- Part 5 : Food cans for fish and other fishery products.

NOTE — Cans grouped under parts 1, 2, 3 and 5 are set forth in the relevant documents.

1 Scope and field of application

This International Standard specifies a recommended range of capacities for round and rectangular cans for edible oil.

For round cans, the diameters related to the capacities are also given (in accordance with ISO 1361).

All can measurements in this International Standard are given in accordance with the provisions of ISO 90.
