1998-08-15

Tractors and machinery for agriculture and forestry — Technical means for ensuring safety —

Part 1: General

AMENDMENT 1

*Tracteurs et matériels agricoles et forestiers — Dispositifs techniques
permettant d'assurer la sécurité —*

Partie 1: Généralités

AMENDEMENT 1

Reference number
ISO 4254-1:1989/Amd.1:1998(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Amendment 1 to ISO 4254-1:1989 was prepared by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, Subcommittee SC 3, *Safety and comfort of the operator*.

Tractors and machinery for agriculture and forestry — Technical means for ensuring safety —

Part 1: General

AMENDMENT 1

Page 10

Subclause 12.3.1

Replace the existing subclause with the following:

"A casing which provides protection against contact with the PTO drive shaft throughout its length shall be provided."
