Cellular plastics — Specification for rigid cellular materials used in the thermal insulation of buildings

ADDENDUM 2 : Labelling and marking of products

Plastiques alvéolaires — Spécifications des matériaux rigides utilisés dans l'isolation thermique des bâtiments
ADDITIF 2 : Étiquetage et marquage des produits

Addendum 2 to International Standard ISO 4898 : 1984 was prepared by Technical Committee ISO/TC 61, *Plastics*.

Page 4

Add the following clause :

"10 Labelling and marking of products

Rigid cellular materials used in the thermal insulation of buildings shall be delivered with the following information marked on the product or the package :

- a) product trade name and manufacturer's name;
- b) manufacturing origin/location, if not included in the production code;
- c) type of product and category, for example RC/PS M cat. II B;
- d) type of facing, if any;
- e) production code with reference to lot number and location of manufacturing of the finished product;
- f) nominal length, width and thickness of boards and number of boards in the package;
- g) additional markings as required by national regulations of countries where the product is to be used, such as design λ - or R-values, burning behaviour and health and safety information;
- h) a reference to this International Standard."
