Electric road vehicles — Safety specifications —
Part 3:
Protection of persons against electric hazards

TECHNICAL CORRIGENDUM 1

Véhicules routiers électriques — Spécifications de sécurité — Partie 3: Protection des personnes contre les dangers électriques

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to ISO 6469-3:2001 was prepared by Technical Committee ISO/TC 22, *Road vehicles*, Subcommittee SC 21, *Electric road vehicles*.

Pages 3 and 4, Clause 3

Replace definitions 3.16, 3.18 and 3.19 with the following definitions.

3.16

reinforced insulation

insulation system applied to live parts which provides protection against electric shock equivalent to double insulation

[ISO 8713]

NOTE The term “insulation system” does not necessarily imply that the insulation shall be a homogeneous piece. It can comprise several layers which cannot be tested individually as supplementary or basic insulation.
