Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 5 to ISO/IEC 10646-1:1993 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 2, *Coded character sets*.

(a) Delete the 52 tables identified as Tables 58 through 109.

(b) Insert the 88 tables of graphic symbols and 88 tables of character names as in attachment B herewith and identified as -

TABLE 124 - Row AC : HANGUL SYLLABLES

consecutively up to

TABLE 211.- Row D7 : HANGUL SYLLABLES

Page 700, Annex A

In the list of collection numbers and names:

(a) delete the entries:

57	HANGUL	3400 - 3D2D
58	HANGUL SUPPLEMENTARY-A	3D2E - 44B7
59	HANGUL SUPPLEMENTARY-B	44B8 - 4DFF

(b) after 70 SPECIALS insert a new line to read:

71	HANGUL SYLLABLES	AC00 - D7A3

(c) after 300 BMP insert a note as follows:

NOTE. The repertoire of characters within the collection 300 BMP is not fixed; it comprises all characters in the BMP at the most recent state of amendment of ISO/IEC 10646-1. The collection 299 BMP FIRST EDITION is intended for inclusion in a future amendment, and will comprise the set of characters in the BMP as specified in the First Edition of ISO/IEC 10646-1 before any amendments were applied.

Page 709, Annex E

In paragraph 1 replace the words:

HANGUL, HANGUL SUPPLEMENTARY-A, HANGUL SUPPLEMENTARY-B,

by

HANGUL SYLLABLES,

Page 751, Annex L

(a) Delete the entry for KS C 5657 - 1991

(b) Amend the entry for KS C 5601 - 1987 *as follows:*

KS C 5601 - 1992 Korean Industrial Standards Association. *Jeongbo gyohwanyong buho (Code for Information Interchange).*

Annex P *(added as part of Corrigendum no. 1)*

Insert the following additional entries:

1100 HANGUL CHOSEONG KIYEOK .....
1112 HANGUL CHOSEONG HIEUH

The Latin letters shown in parenthesis after the names of the characters in the range hex 1100 to 1112 (except 110B) are transliterations of these Hangul characters. These transliterations are used in the construction of the names of the Hangul syllables that are allocated in code positions hex AC00 to D7A3 in this International Standard.

11A8 HANGUL JONGSEONG KIYEOK .....
11C2 HANGUL JONGSEONG HIEUH

The Latin letters shown in parenthesis after the names of the characters in the range hex 11A8 to 11C2 are transliterations of these Hangul characters. These transliterations are used in the construction of the names of the Hangul syllables that are allocated in code positions hex AC00 to D7A3 in this International Standard.

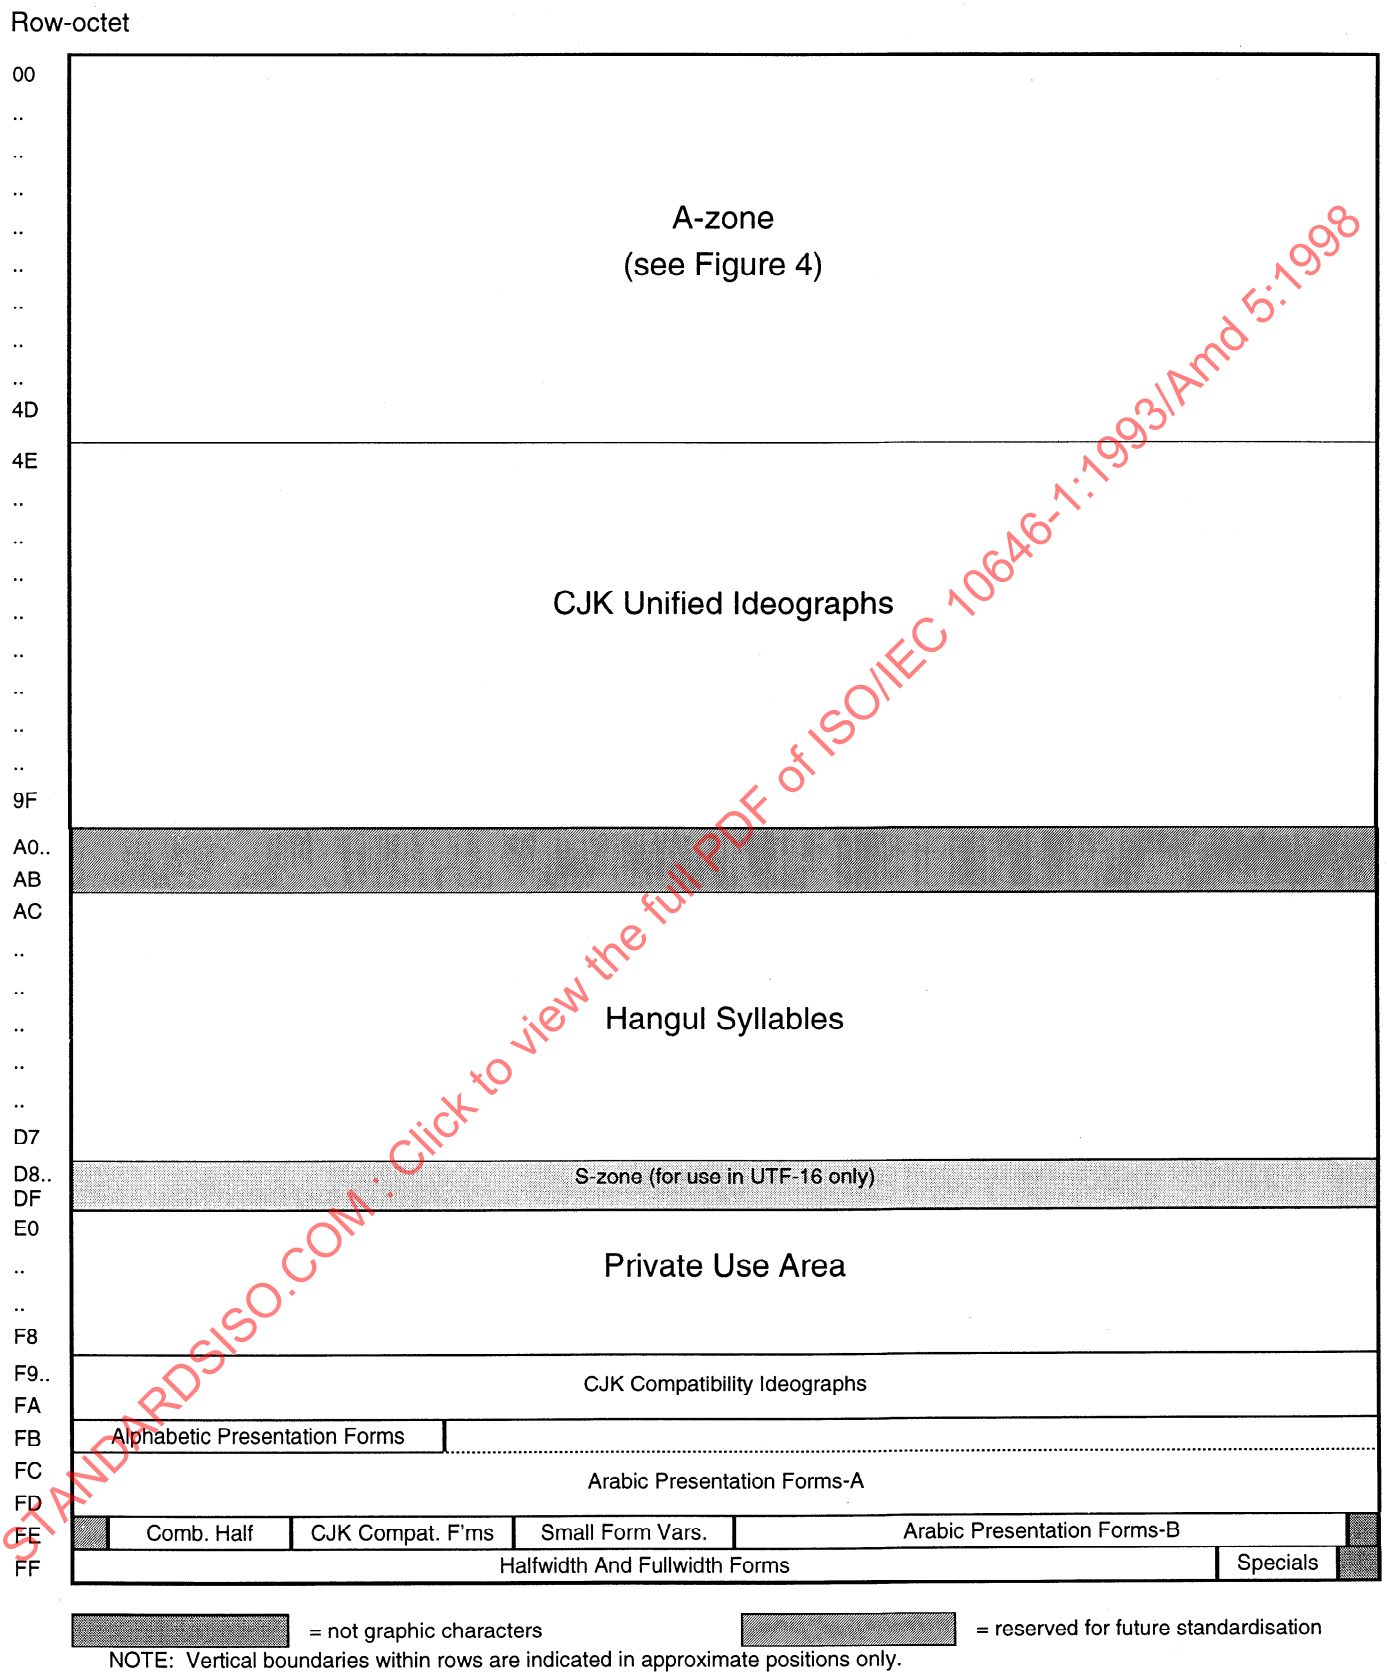

After Annex R *(added as part of Amd.2)*

Insert new Annex S herewith, titled:
