Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 1 to International Standard ISO/IEC 13818-3 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 29, *Coding of audio, picture, multimedia and hypermedia information*.

2.6 Registration of Copyright Identifiers

2.6.1 General

Parts 1, 2, and 3 of ISO/IEC 13818 provide support for the management of audio-visual works copyrighting. In ITU-T Recommendation H.222.0|ISO/IEC 13818-1 this is by means of a copyright descriptor, while ITU-T Recommendation H.262|ISO/IEC 13818-2 and ISO/IEC 13818-3 contain fields for identifying copyright holders through syntax fields in the elementary stream syntax. Subclause 2.6.2 presents the method of obtaining and registering copyright identifiers in ISO/IEC 13818-3.

ISO/IEC 13818-3 specifies a unique 32 bit copyright_identifier which is a work type code identifier (such as ISBN, ISSN, ISRC, etc...) carried in the copyright descriptor. The copyright_identifier enables identification of a wide number of Copyright Registration Authorities. Each Copyright Registration Authority may specify a syntax and semantic for identifying the audio-visual works or other copyrighted works within that particular copyright organisation through appropriate use of the variable length additional_copyright_info field which contains the copyright number.

In subclause 2.6.2 and annexes F, G and H, the benefits and responsibilities of all parties to the registration of copyright_identifier are outlined.

2.6.2 Implementation of a Registration Authority (RA)

ISO/IEC JTC 1 shall call for nominations for an international organization which will serve as the Registration Authority for the **copyright_identifier** as defined in ISO/IEC 13818-3. The selected organization shall serve as the Registration Authority. The so-named Registration Authority shall execute its duties in compliance with Annex H of the JTC 1 directives. The registered copyright_identifier is hereafter referred to as the Registered Identifier (RID).

Upon selection of the Registration Authority, JTC 1 shall require the creation of a Registration Management Group (RMG) which will review appeals filed by organisations whose request for a RID to be used in conjunction with ISO/IEC 13818-3 has been denied by the Registration Authority.

Annexes F, G and H to ISO/IEC 13818-3 provide information on the procedures for registering a unique copyright identifier.

Add the following new annexes:

"

Annex F (informative) **Registration Procedure**

F.1 Procedure for the request of a Registered Identifier (RID)

Requesters of a RID shall apply to the Registration Authority. Registration forms shall be available from the Registration Authority. Information which the requester shall provide is given in clause F.3. Companies and organizations are eligible to apply.

F.2 Responsibilities of the Registration Authority

The primary responsibilities of the Registration Authority administrating the registration of copyright_identifiers is outlined in this clause ; certain other responsibilities may be found in the JTC 1 Directives. The Registration Authority shall :

- a) implement a registration procedure for application for a unique RID in accordance with Annex H of the JTC 1 Directives ;
- b) receive and process the applications for allocation of the work type code identifier from Copyright Registration Authority ;
- c) ascertain which applications received are in accordance with this registration procedure, and to inform the requester within 30 days of receipt of the application of their assigned RID ;
- d) inform application providers whose request is denied in writing within 30 days of receipt of the application, and also inform the requesting party of the appeals process ;
- e) maintain an accurate register of the allocated RID. Revisions to the contact information and technical specifications shall be accepted and maintained by the Registration Authority ;
- f) make the contents of this register available upon request to any interested party ;
- g) maintain a data base of RID request forms, granted and denied. Parties seeking technical information on the format of private data which has a copyright_identifier shall have access to such information which is part of the data base maintained by the Registration Authority ;
- h) report its activities to JTC 1, the ITTF, and the JTC 1/SC 29 Secretariat, or their respective assignees, annually on a schedule mutually agreed upon.

F.2.1 Contact Information of the Registration Authority

F.3 Responsibilities of parties requesting a RID

The party requesting a RID for the purpose of copyright identification shall :

- a) apply using the Form and procedures supplied by the Registration Authority ;
- b) provide contact information describing how a complete description of the copyright organization can be obtained on a non-discriminatory basis ;

- c) include technical details of the syntax and semantics of the data format used to describe the audio-visual works or other copyrighted works within the additional_copyright_info field. Once registered, the syntax used for the additional copyright information shall not change ;
- d) agree to institute the intended use of the granted copyright_identifier within a reasonable time frame ;
- e) to maintain a permanent record of the application form and the notification received from the Registration Authority of each granted copyright_identifier.

F.4 Appeal procedure for denied applications

The Registration Management Group is formed to have jurisdiction over appeals relating to a denied request for a RID. The RMG shall have a membership who are nominated by P and L members of the ISO technical body responsible for this part of ISO/IEC 13818. It shall have a convenor and secretariat nominated from its members. The Registration Authority is entitled to nominate one non-voting observing member.

The responsibilities of the RMG shall be :

- a) To review and act on all appeals within a reasonable time frame ;
- b) to inform, in writing, organisations which make an appeal for reconsideration of its petition of the RMGs disposition of the matter ;
- c) to review the annual report of the Registration Authority summary of activities ;
- d) to supply ISO member bodies with information concerning the scope of operation of the Registration Authority.
