FUNCTION KEY SYMBOLS ON TYPEWRITERS

1. SCOPE AND FIELD OF APPLICATION

This ISO Recommendation defines a set of symbols for function keys of typewriters which may be used to indicate the functions of particular keys irrespective of the language employed in the country of manufacture or use. It is not intended that this set of symbols should preclude the use of words, where language difficulties do not arise.

2. KEY SYMBOLS

Function keys should be provided with symbols as follows :

2.1 Margin release key

2.2 Back space key

← on typewriters for languages written from left to right,
 → on typewriters for languages written from right to left.

2.3 Return key

↵ on typewriters for languages written from left to right,
 ↶ on typewriters for languages written from right to left.

2.4 Non-decimal tabulating key (not in the form of a bar)

→ on typewriters for languages written from left to right,
 ← on typewriters for languages written from right to left.
